Invacare® | Esprit Action®4 NG

Easy to transport, lightweight powerchair

Invacare Esprit Action®4 NG is a compact and lightweight power wheelchair for those who like to get about easily. Its tool free removable wheels and compact battery pack make it ideal for transporting (heaviest item weighing only 15 Kg). It has lightweight wheels with an option for self propel and a reduced overall width (seat plus 170 mm) making it narrow enough to manoeuvre around the tightest of spaces. The Esprit Action®4 NG provides all the advantages of driving a power wheelchair indoor and outdoor, without the size and bulk.

Trusted Solutions, Passionate People

Yes, you can.
Compact and lightweight

Thanks to the new chassis structure (available in 5 colours) and overall width, everything is smaller and narrower for getting around indoors. And with a specially designed frame the total width of the chair does not add more than 170 mm to the width of the seating. The *Esprit Action* NG is easy to dismantle making it highly transportable.

Highly Configurable

The adult version has eight seat width options from 380mm to 605mm and three seat depths from 400mm to 500mm.

The junior version offers four different seat widths of 305mm to 380mm and seat depths from 325mm - 375mm.

More options available

The armrest width allows for configuration adjustments of up to 50 mm (maximum) allowing for more customised seating and frame positions.

It can be equipped with a variety of configured options including backrest for *Matrix* positioning. *Esprit Action* NG also provides the option of an attendant control should this be required.

There are a range of colours to choose from including Ocean Blue, Slate Grey, Pearl White, and Anthracite Black for the adult version.

For the junior version there is Ocean Blue, Pearl White, Bubble Gum Pink and Anthracite Black.

Additionally, you can select any RAL colour you’d like through our customisation service. See our Invacare UNIQUE brochure for more information.

Features and Options

- **Dual intuitive pressure sensors**
  This allows an attendant to drive the wheelchair from behind in an easy yet intuitive manner.

- **Alber anti-tippers as standard**
  With Jack up function to help the quick release of wheels.

- **Welded castor mounts**
  Provide greater rigidity on the front of the chair.

- **Wheel protection bumper**
**Disassembled and folded chair**
The heaviest part weighs only 15 kg (chassis).

---

**Sleek yet Powerful Design**
The Esprit Action®4 NG has been designed in such a way to allow all the configurable options you would expect in a manual chair, but incorporating the powerful drive wheels discreetly into the hubs.

---

**Junior Version**
Esprit Action®4 NG is available in two different sizes: adult or junior version.

---

**Features and Options**

- **Adaptable arm widths give up to 50mm adjustment.**
- **Simply push and turn to remove wheel.**
- **Overall width reduced**
The frames allow for the motors to sit inside and reduce the width.
- **Self Propel Wheels (Option)**
Convert the chair to a manual chair.
